What is Paintless Dent Removal?

Paintless Dent Removal uses state-of-the-art SMARTREPAIR techniques carried out by professional, specialist technicians. The art of “massaging” dents out of body panels can restore vehicles to original condition without time consuming and costly traditional panel beating. Paintless Dent Removal is environmentally friendly and can be done at any location.

How long does it take?

Technicians can remove some dents in a matter of minutes. Depending on size and access most rectification can be done in less than an hour. Even hail damaged cars can be restored in a matter of hours.

How much does it cost?

Research has shown that 50-75% savings can be made using this process over traditional body shop repair methods.

Who uses Paintless Dent Removal?

- Vehicle manufacturers
- Insurance companies
- Lease & rental companies
- Car dealerships
- Company fleet operators
- Government departments
- Private Individuals

ManheimFowles, part of the world's leading global automotive remarketing group - Manheim, are specialists in vehicle preparation.
